Wilderness Peak

Yet another awesome view of the Champlain Valley gives a different view of the southern half of the lake and again - one majorly awesome sunset!

WILDERNESS PEAK ELEV. 3120'

VISTA PEAK LOOKOUT TOWER ELEV. 3200'

Vista Lookout Tower

This hike climbs about 1000' vertical feet with some sustained pitches along the way. You have the option to take the work roads or head up via Cobrass Run. The 360-degree views from the tower are well worth it! Mansfield to the North, Camels Hump to the South, Worcestire Mountains East, and perhaps the single most beautiful sunset view of Lake Champlain and the Adirondacks to the West!

When inside Bike Park Boundary, stay on hiking routes. DO NOT HIKE ON MOUNTAIN BIKE TRAILS

Lifts may spin at any time. Do not sit on or around chairlifts.

Timberline Peak & Midstation

This hike has two beautiful vantage points. Mid-station provides one heck of a view of the Champlain Valley (sunsets!) and Timberline Peak has more of the same. Multiple routes make for lots of options ranging from an easy traverse from the main base area to the mid-station or a 1000' climb from the base of the Timberline lift to the top of Timberline Peak.

TIMBERLINE PEAK ELEV. 2400'

MID-STATION ELEV. 2200'

Bryant Camp

Not a long hike, but a steady pitch and about 500' vertical. Allow about 30 minutes to get to the cabin. Built around 1930 by Edward Bryant, this rustic little cabin was the first ski lodge in the valley! Visitors can rent it for overnight stays during summer and winter months through the Green Mountain Club. Book online at greenmountainclub.org.

BRYANT CAMP ELEV. 2700'

BASE AREA ELEV. 2100

5k Loop

It's our 5k loop! Starting at the Sports Center, there's a lot of up and down, but not much net elevation gain. It's a nice challenging 5k trail run with a good cross section of our terrain around the village. Follow the white markers!

Harrington's View

This hike is about 45-60 minutes each way. Some parts are steep, but only for short stretches. Elevation gain is only about 500 vertical feet, but there are ups and downs, so be prepared to climb a little more. The view faces East back toward the resort village and gives a unique perspective on the layout of the valley. AND it's on VT's famous Long Trail, which provides ample opportunity for further adventure!

HARRINGTON'S VIEW ELEV. 2600'

Bolton Cabin

Built by the CCC in 1928 as part of the original Long Trail, this little cabin affords one of the more unique views of Camels Hump as it faces due south, looking directly across the Winooski Valley. Located on our beautiful 2.5-mile long Broadway work road, it's a nice long downhill walk from the resort, and a relatively gentle yet sustained climb back up. Also available for overnight rentals, this historic cabin can be booked online with the GMC.
